Welcome to THE DOWNLOAD

Let's Get Started...

- This session is being recorded and will be available after the meeting on the MiHIN website.
- All attendees are muted
- Participating in the forum
 - Ask questions and make comments using the WebEx Chat
 - A moderator will read your question aloud or respond via chat at the end of the section.

- Chat Controls
 - On the right-side of your screen

The screenshot shows a WebEx chat window titled "Chat" with a close button (X) in the top right corner. Below the title bar, there is a "To:" dropdown menu set to "Everyone". Below that is a text input field labeled "Enter chat message here". At the bottom of the chat window, there are three buttons: "Participants" (with a list icon), "Chat" (with a speech bubble icon), and a three-dot menu icon. Three red arrows point to these buttons from external callouts: one points to the "Enter chat message here" field from a box labeled "Type your Question or Comment Here"; another points to the "Chat" button from a box labeled "Click to view the Chat window"; and a third points to the "To:" dropdown menu from a box labeled "Select who should view your message".

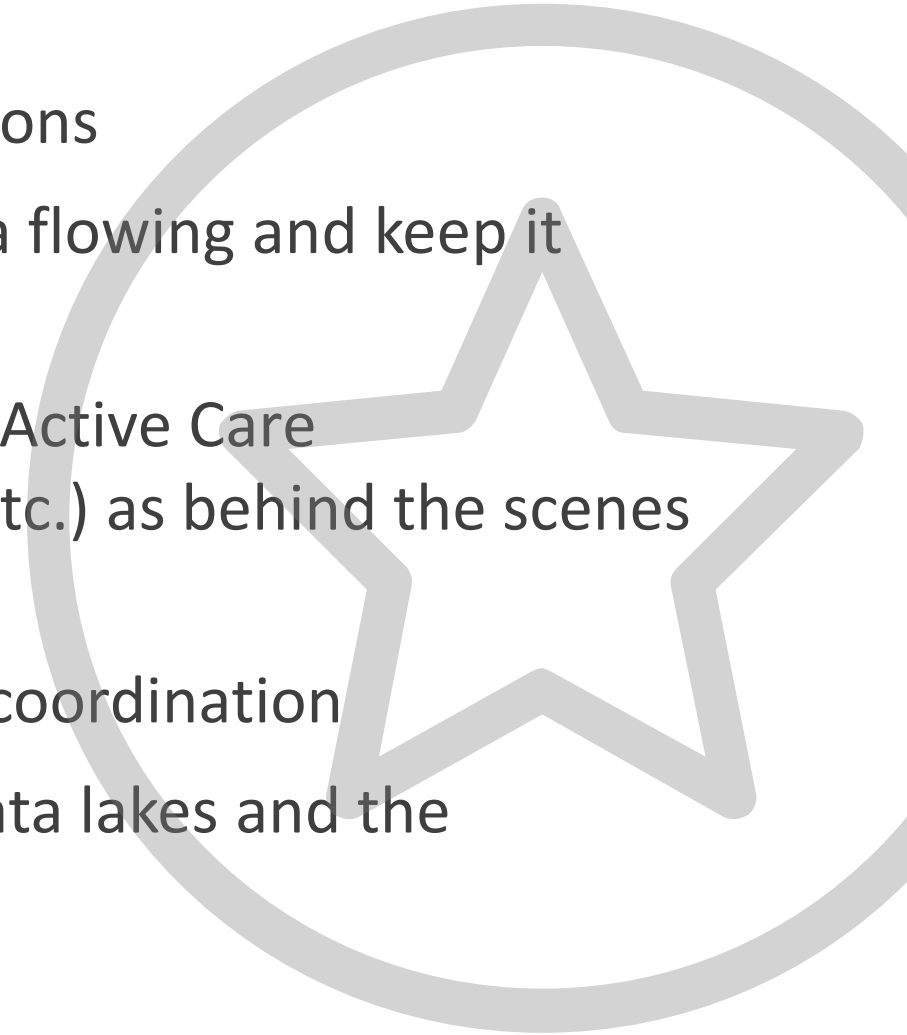

Michigan Health Information Network Shared Services (MiHIN)

MiHIN is Michigan's initiative to continuously improve healthcare quality, efficiency, and patient safety by promoting secure, electronic exchange of health information. MiHIN represents a growing network of public and private organizations working to overcome data sharing barriers, reduce costs, and ultimately advance the health of Michigan's population.

MiHIN is a
network for sharing health
information statewide for Michigan

MiHIN's Five Focus Areas

1. **Convening** people to figure out functional solutions
2. Champion Statewide **Use Cases** to fairly get data flowing and keep it moving securely among all legitimate parties
3. Operate as a **Shared Services** (Health Directory, Active Care Relationships, Security, Legal, Client Matching, etc.) as behind the scenes infrastructure
4. **Providing tools** to support daily workflows and coordination
5. **Reporting, Conformance,** and **Analytics** from data lakes and the longitudinal health record

Product Marketing Manager
jason.vismara@mihin.org

Workshop Intent

**Help frame a
Statewide Data
Sharing Opportunity
for exchanging
medical images**

**Identify Key Barriers to
Image Sharing**

**Prioritize Data Sharing
Scenarios**

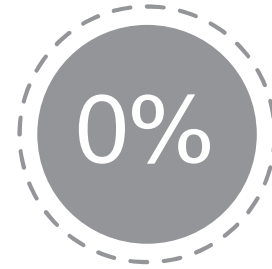

**Create a whitepaper to
frame the data sharing
opportunity &
associated issues**

**Enhance Existing
Image-Related Use
Cases**

Today's Audience

Hospital Systems

Health Information Exchanges

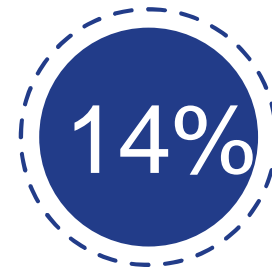

Health Plans

Combination

Physician Organizations

Other

Imaging Workshop #2

Highlights & Key Takeaways

Session 1 Recap

Session 1 was largely focused on the health systems and some technology options that are available.

01

Current State

Reviewed the current workflow for providers to access and share images.

02

Statewide Index

Discussed the groups vision for a statewide index for images and information that could be available.

03

Group Discussion

Discussed the feedback from the 3 sessions and key takeaways.

04

Current State

- There are many vendors that are not always able to easily exchange images with each other
- The current system creates a lot of burden on the providers
- The DICOM standard has some challenges associated with it and the metadata can vary
- There is no legislation requiring organizations to share images or header information in a central repository

Statewide Imaging Index

- A central directory for image centers and the available services/contact information
- A central registry of images available for a patient
 - Contain key information such as DICOM headers
 - Leverage existing statewide infrastructure to enhance patient matching
 - Avoid having to synchronize updates to images
- Potential to enhance CCDs with reference information for an image

Upcoming Imaging Workshops

- 03 **April 1, 2021: 2:30 PM – 4:00 PM**
Health Plan Benefits and Technical Interoperability Approaches
- 04 **April 29, 2021***
Review White Paper Outline and White Paper Draft
- 05 **May 25, 2021***
Final White Paper Review

**The dates for workshop 4 and 5 are tentative*

CONNECTING MICHIGAN

for health and more

Virtual Conference Series

Theme: Healthcare Technology 3.0

2020 has been a “perfect storm” across the healthcare continuum. Many of the issues and topics that have been top of mind in healthcare for the last few years will still be pertinent in 2021 but must now be viewed in the context of all that transpired in the previous year. We’ll explore this new paradigm of “Healthcare 3.0” and its implications for the ongoing evolution of healthcare delivery, experience, costs, and outcomes.

The series will welcome leaders in healthcare, legal policy, interoperability, and many more to engage in discussion and network with peers.

2021 Dates & Topics

Two, full-day conferences featuring keynote speakers and industry leaders will bookend three, half-day, deep dive workshops led by subject matter experts. Topics such as social determinants of health, ONC/CMS final rules, eConsent, virtual care, and more will be covered.

March 23 (full day) – Introduction to Healthcare Technology 3.0

April 8 (half day) – Social Determinants of Health Workshop

June 24 (half day) – Virtual Care (Telehealth & Patient Reported Outcomes) Workshop

October 12 (half day) – Sharing Psychiatric ADT and Treatment Center Notifications Workshop

November 9 (full day) – Summary of Healthcare Technology 3.0

March 23 Kickoff Conference
