

# SDOH: What's data got to do with it?

Government Entities

## AGENDA

10:00 – 10:25 a.m.

Presentation of Background and Purpose

10:30 – 11:30 a.m.

Break Out Rooms and Facilitated Discussion/Discovery/Feedback

11:30 – 12:00 a.m.

Regroup: Next Steps?

## HOUSEKEEPING

This session, and each breakout room, is being recorded

Please feel free to ask questions and make comments by unmuting or by using the chat function

Please take a moment to type into the chat the main reason you are attending today.

# MiHIN SDOH Program Team

**Lisa Nicolaou**  
MiHIN SDOH  
Program Director

**Dr. Michael  
Klinkman**  
MiHIN SDOH  
Medical Director

**Joanne Jarvi**  
MiHIN Senior  
Director of  
Outreach and  
Market  
Communications

**Michael Taylor**  
MiHIN Senior  
Product  
Marketing  
Manager

**Sammie  
Madson- Olson**  
MiHIN SDOH  
Project Manager

## In Partnership With:

Michigan Association of  
United Ways

United Way  
for Southeastern Michigan

# Workshop Purpose:

- A series of conversations to identify barriers to cross-sector care and data exchange that impacts
  - Community based organizations and social care providers
  - Healthcare organizations
  - Government entities
- A concentrated opportunity to provide feedback towards a statewide social care data exchange strategy

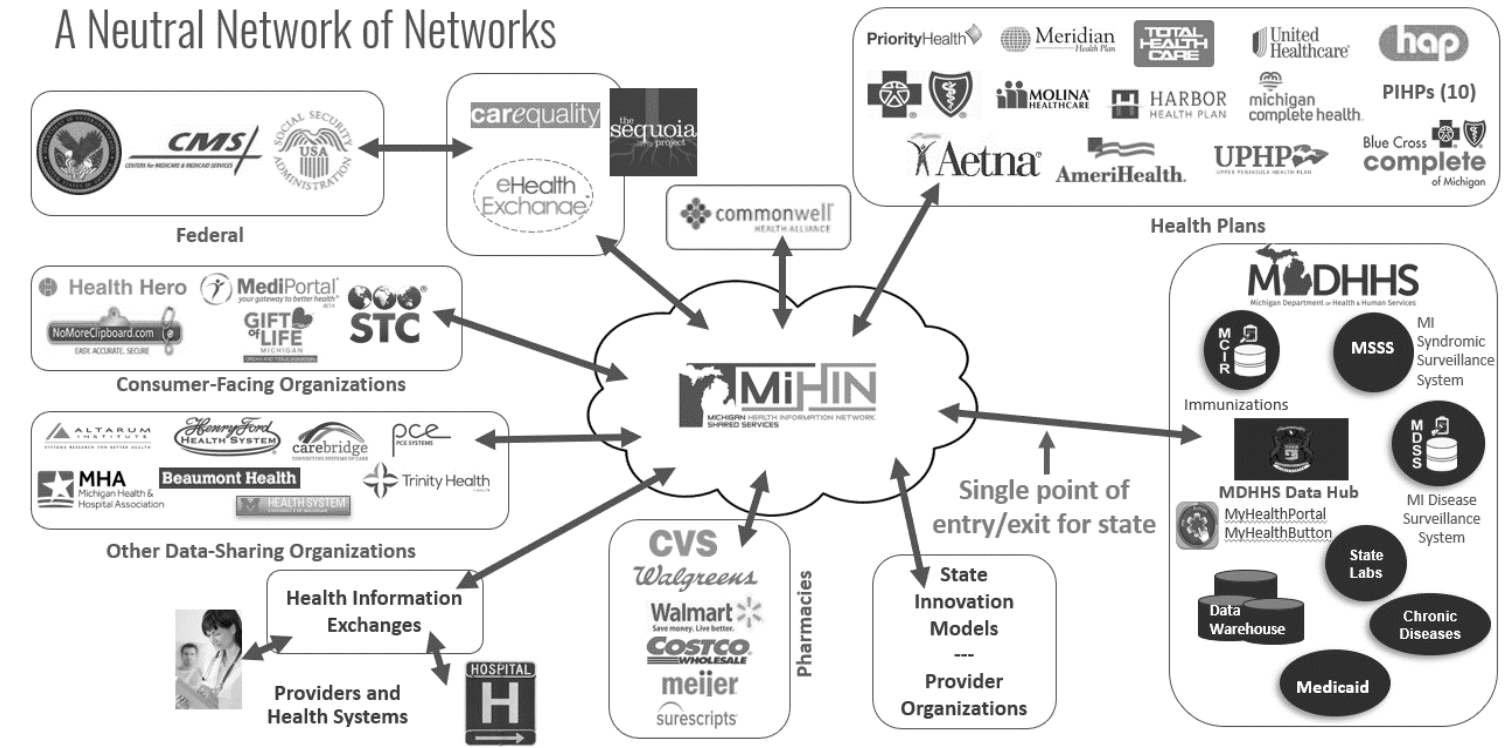

Michigan Health Information Network Shared Services (MiHIN) is a non-profit organization that provides technology and services to connect disparate sectors, our stakeholders, to securely share health information.

An unbiased data trustee, MiHIN does not provide health care services, produce health care data or compete in the marketplace.

Instead, we help convene to share vital health information to advance better care, better outcomes and lower costs.

*Technology is a tool. Humans are the energy. Technology allows humans to connect, communicate, and collaborate.*

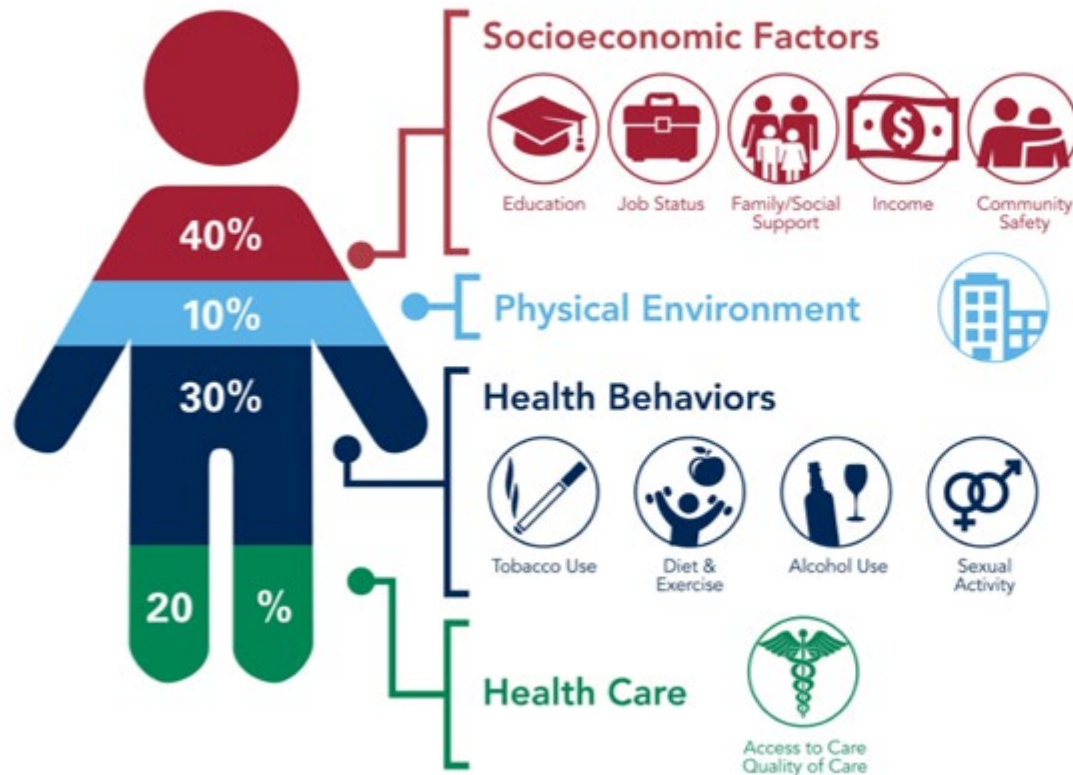

# Who is attending: Summary of attendees

AAA3C	District Health Department #10	Joy Southfield CDC	Michigan State University Extension	Southeastern Michigan Health Association
ACL	District Health Dept. #10	Kent County Essential Needs Task Force	Michigan Works!	STARS
Administration for Community Living	DTE	Lakeshore Regional Entity	Michigan. Dept. of Health and Human Services	State of Michigan
Alger Marquette Community Action Board	Eastern Michigan University	Lifeways Community Mental Health	MiHIN	State of Michigan Land Bank Authority
Area Agencies on Aging Association of MI	Easterseals MI	Macomb community action	MPHI	The Joint Commission
Area Agency on Aging of Western Michigan	Eaton County Human Services Collaborative Counsel	MCA	MSHIELD	The Senior Alliance
Benzie Area Chamber of Commerce	EUP Regional Planning	MDHHS	National Interoperability Collaborative	Tri-County Office on Aging
Benzie Leelanau District Health Dept	Family Learning Institute	MDHHS-MCPD QIPD	New Beginnings CDC	United Way for Southeast MI
Berrien County	Fiduciary	MI Coalition Against Homelessness	Northpointe	Upper Peninsula Health Plan
CEDAM	FRBC	Michigan	Oakland County Health Division	Village of Elk Rapids
Cheboygan Housing Commission	GenesisHOPE	Michigan Department of Health and Human Services	Office of Senior Services	Washtenaw County Office of Community & Economic Development
CHRT	Greater Flint Health Coalition	Michigan Dept of Health and Human Services	ONC	Washtenaw County Office of Community and Economic Development
City of Albion	Habitat for Humanity Detroit	Michigan Environmental Council	Red Maple Resources, Inc.	Wayne MetroCAA
City of Flint	Harvest Time Christina Fellowship	Michigan Health Information Network (MiHIN)	Region 2 Area Agency on Aging	Western UP Planning & Development Region (WUPPDR)
City of Hart	HealthWest	Michigan Multipayer Initiatives	Region IV Area Agency on Aging	WHIL
City of St. Clair Shores	HHS	Michigan Public Health Institute	Senior Resources of West Michigan	
Detroit	Interoperability Institute		Single Family Living	
DisabilityNetwork	Jackson County MDHHS			

# What goes into your health?

Social determinants of health have tremendous affect on an individual's health regardless of age, race, or ethnicity.

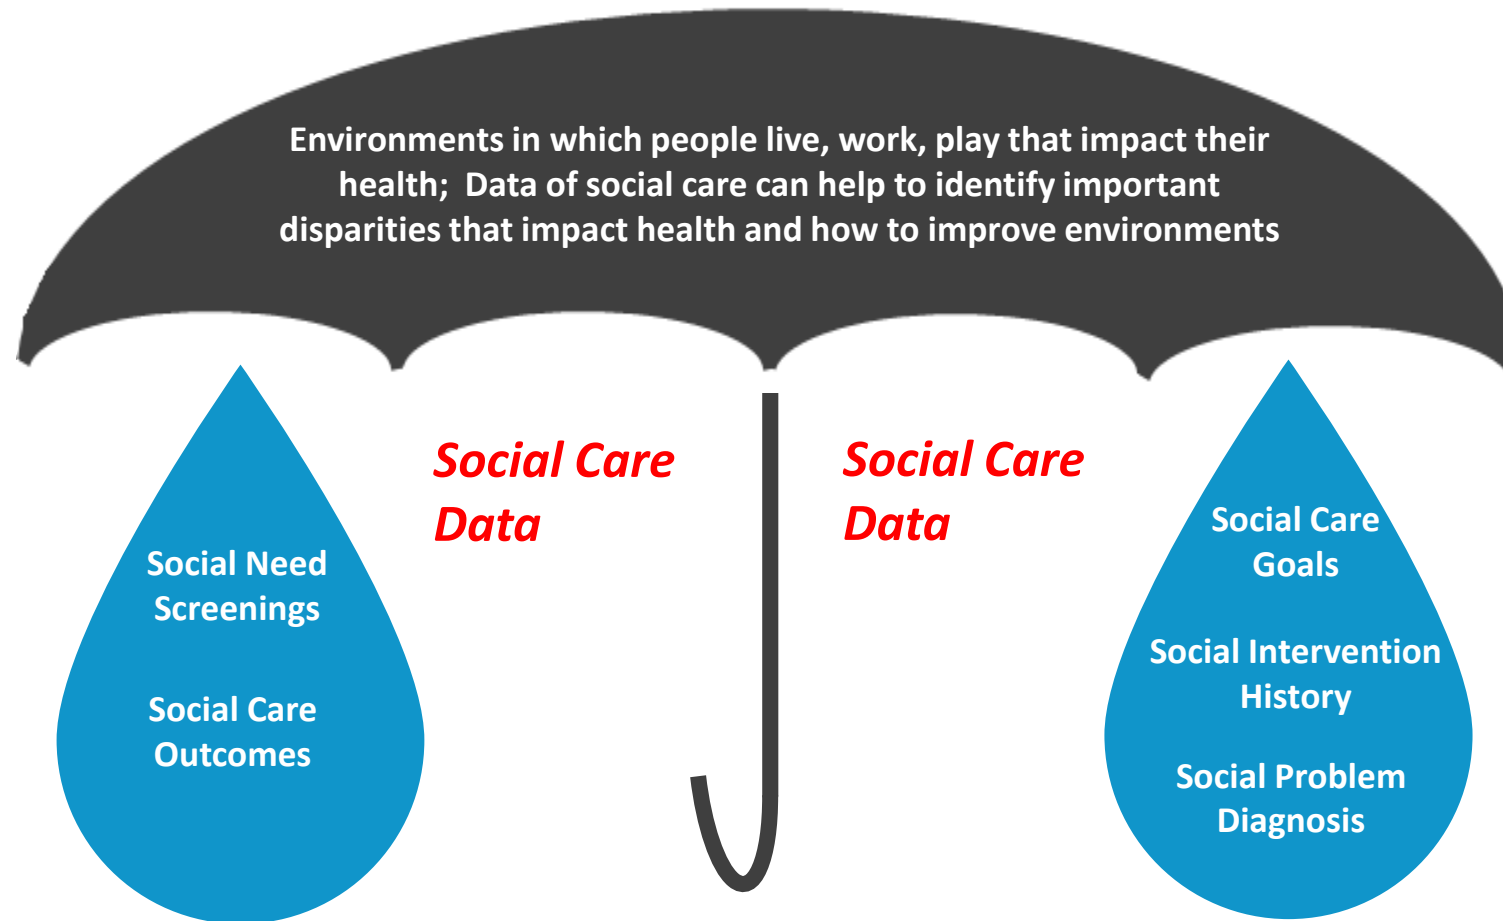

## ➤ SDOH Impact

- ➔ **20 percent** of a person's health and well-being is related to **access to care and quality of services**
- ➔ The physical environment, social determinants and behavioral factors drive **80 percent** of health outcomes

# Social Determinants of Health:

# MiHIN's Goals for the SDoH Program

*To enable the collection and exchange of social data at the point of care to:*

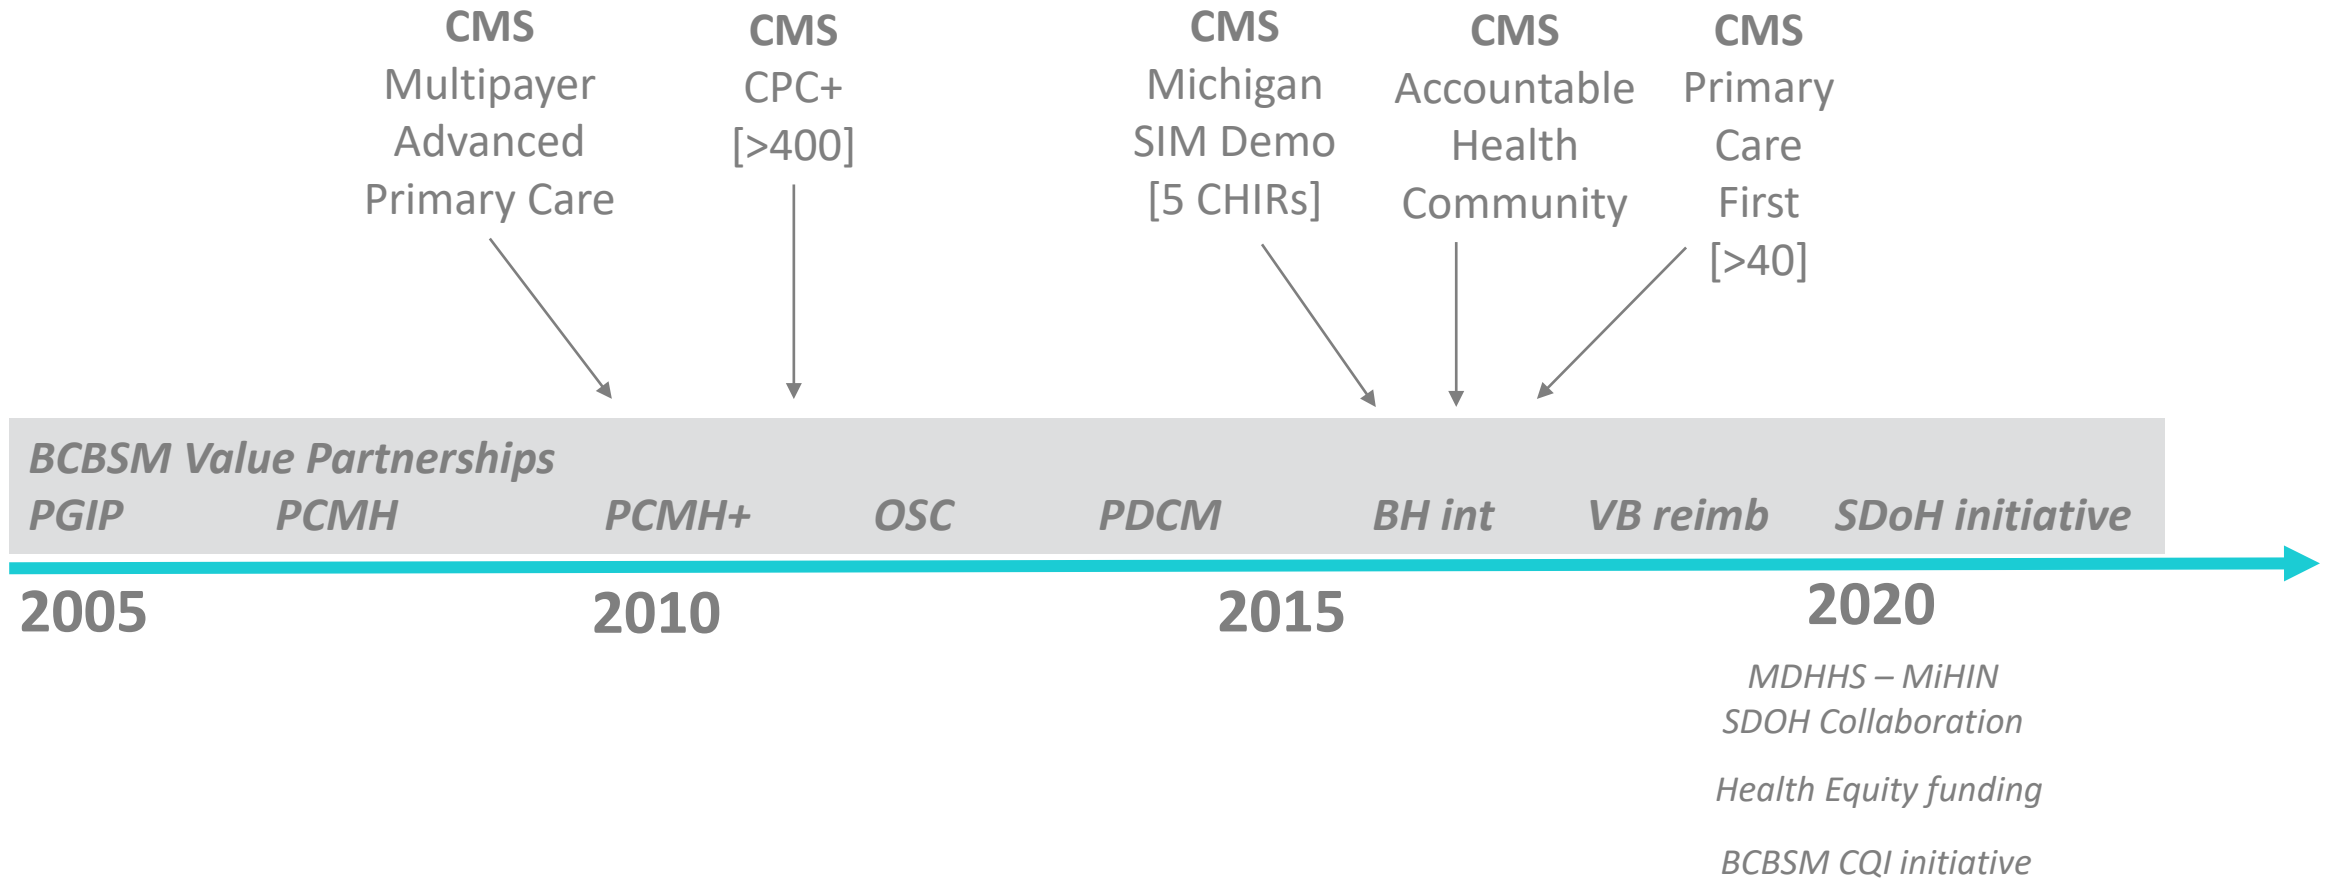

- *Support cross-sector care coordination*
- *Provide comprehensive data for population health improvement*

*MiHIN is doing this by developing and implementing content and exchange standards for:*

- *Social needs screening*
- *Social problems (diagnoses)*
- *Social interventions*

# Social Data and Care in Michigan

## 2005-present

# Pandemic Impact

# MiHIN's Strategy to Support Cross-Sector Data Exchange

- ✓ Build on the foundation of a common care model to support cross-sector care coordination
- ✓ Work with the national Gravity Project to develop standards for social care data exchange
- ✓ Use MiHIN's existing tools and services wherever possible
- ✓ Work with IT vendors willing to employ Gravity and MiHIN standards

# Who are the participants in this work?

- Patients/clients and their caregivers
- Medical care providers
- Social services providers (formal and informal)
- Public health providers and officials
- Medical care payors (insurers)
- Social services payors (multiple)
- Local/regional/state/federal governments and agencies

# *The 4 sectors and 6 systems engaged in a CIHN*

# Structural and operational 'building blocks' in a CIHN

**Public Health**

- SDoH/BH screening
- Medical screening
- Environmental action
- PH emergency services
- Referrals

**Health care delivery system(s)**

- SDoH/BH screening
- Care coordination
- Referrals

**Standards**

Data capture, coding, exchange  
Documentation and reimbursement

**Government [Local]**

- Governance
- Stakeholder alignment
- Resource allocation
- Policy alignment
- PH emergency services

**Social care**

- SDoH/BH screening
- Medical screening
- Social navigation
- Care coordination
- Referrals

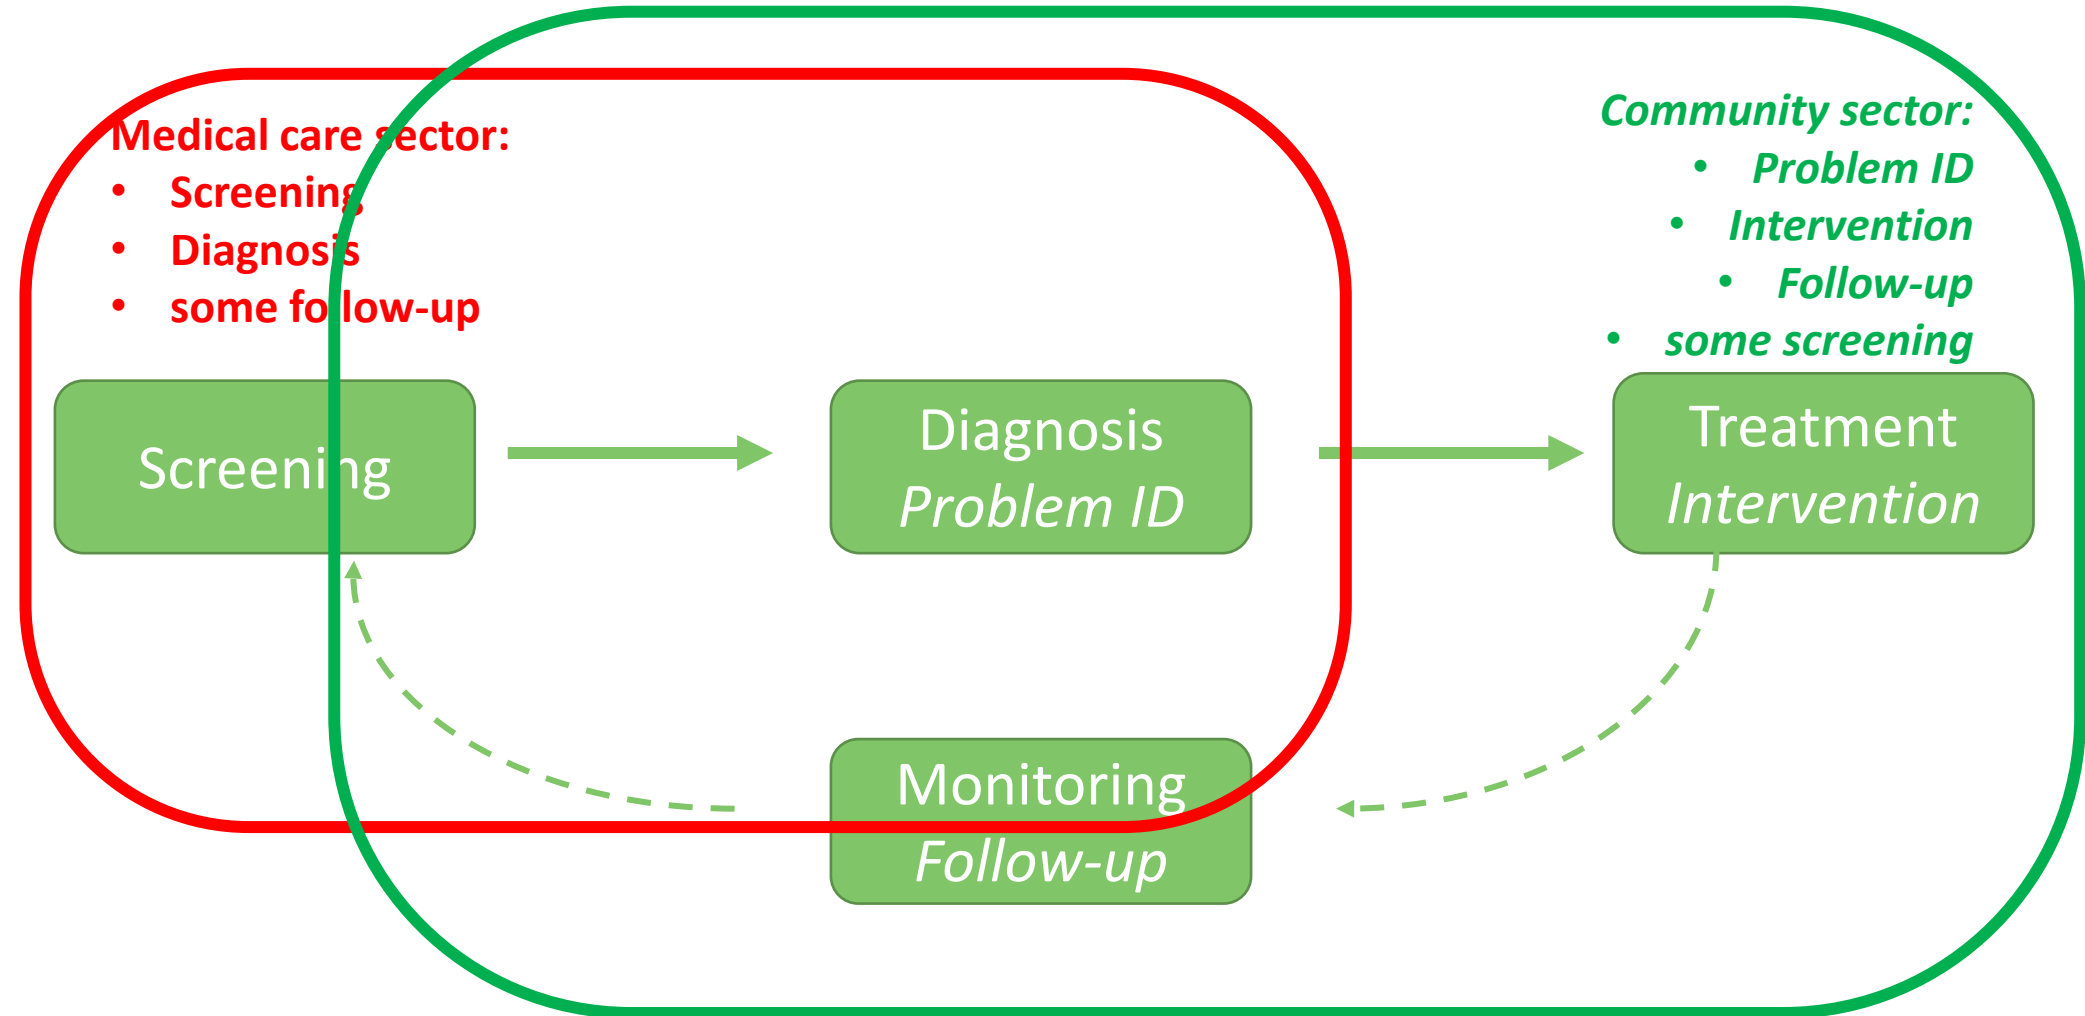

**Infrastructure**

Human and technical infrastructure necessary to connect stakeholders – common care model, communications infrastructure, IT infrastructure (hubs, applications)

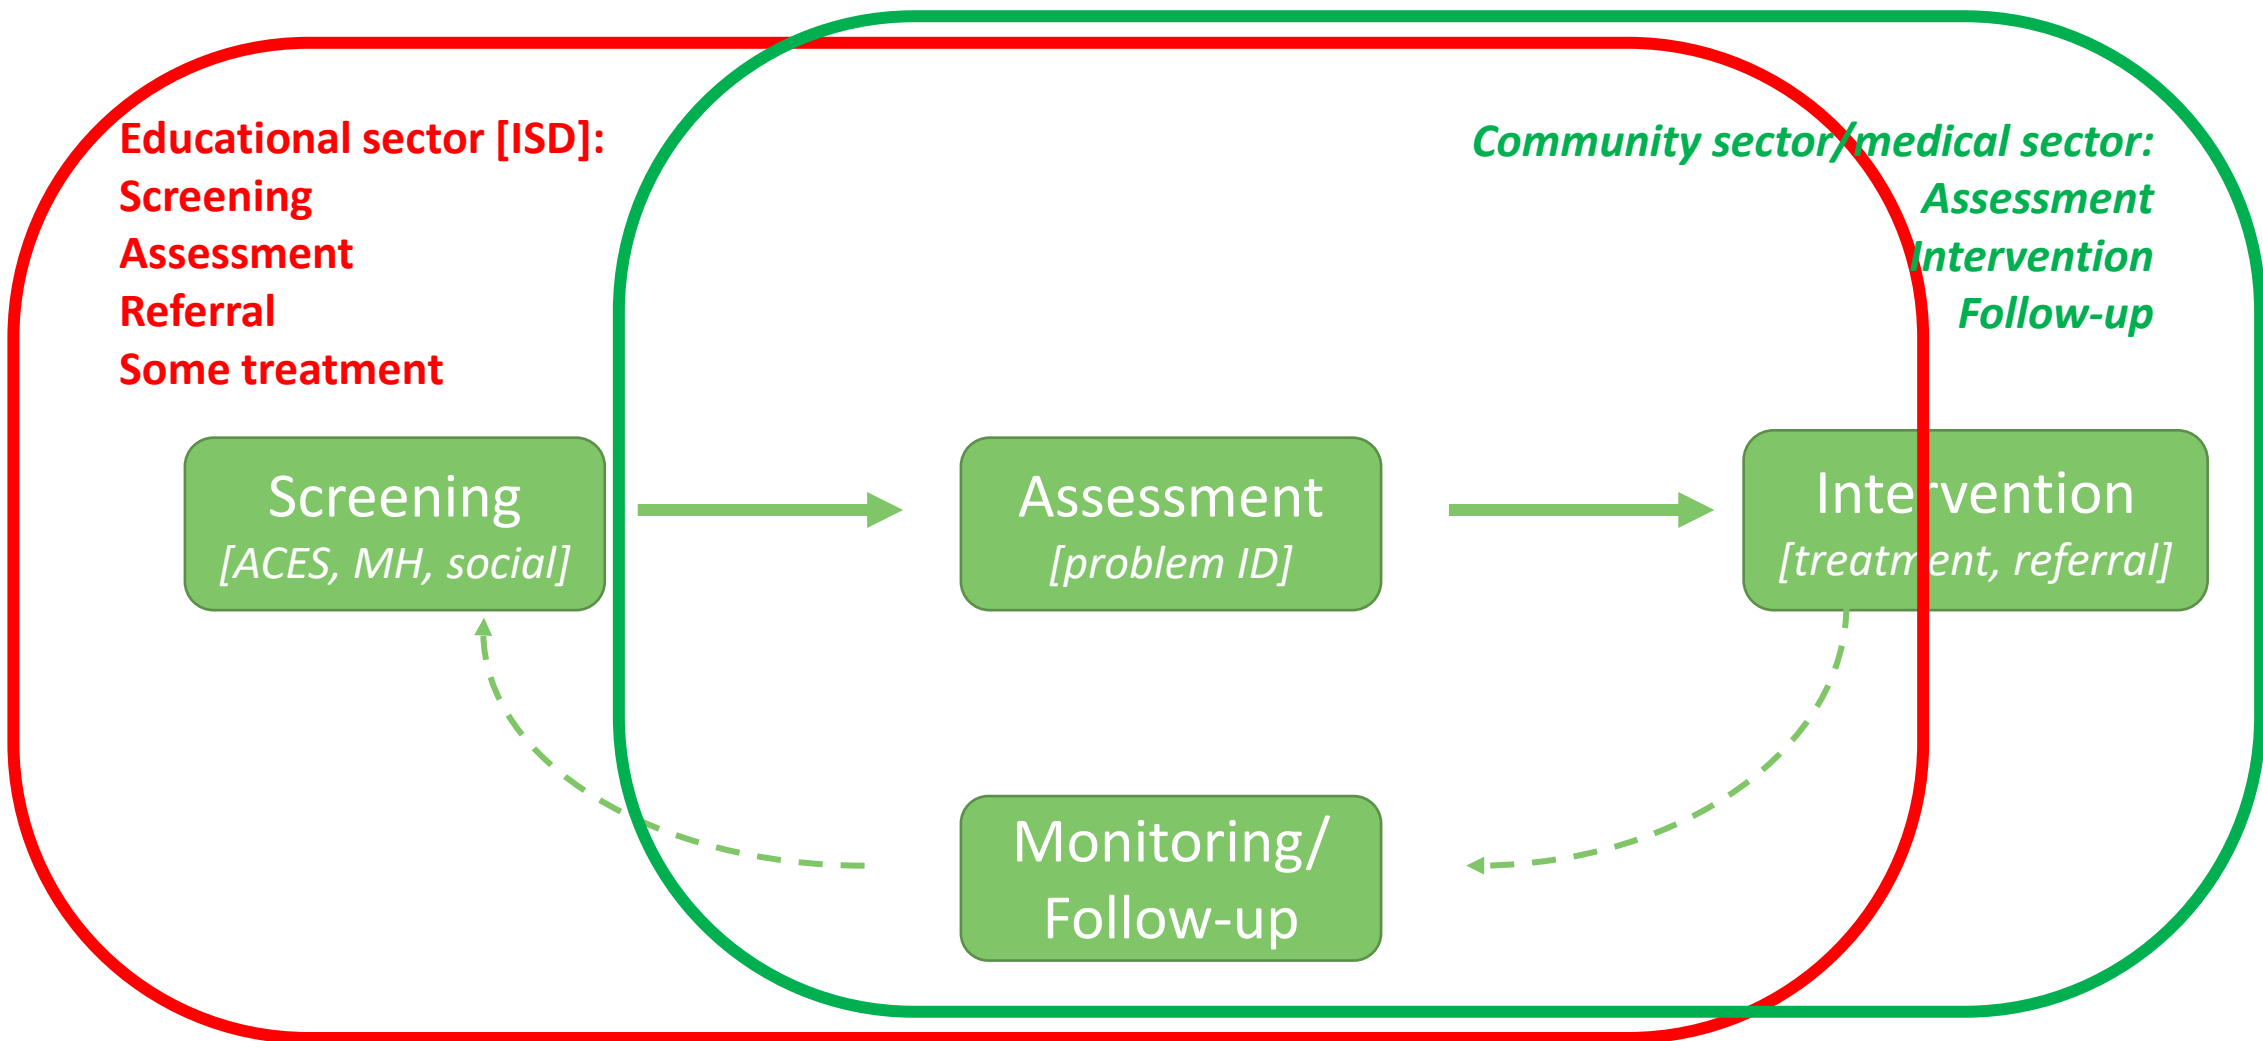

## Use cases (scenarios) for cross-sector care

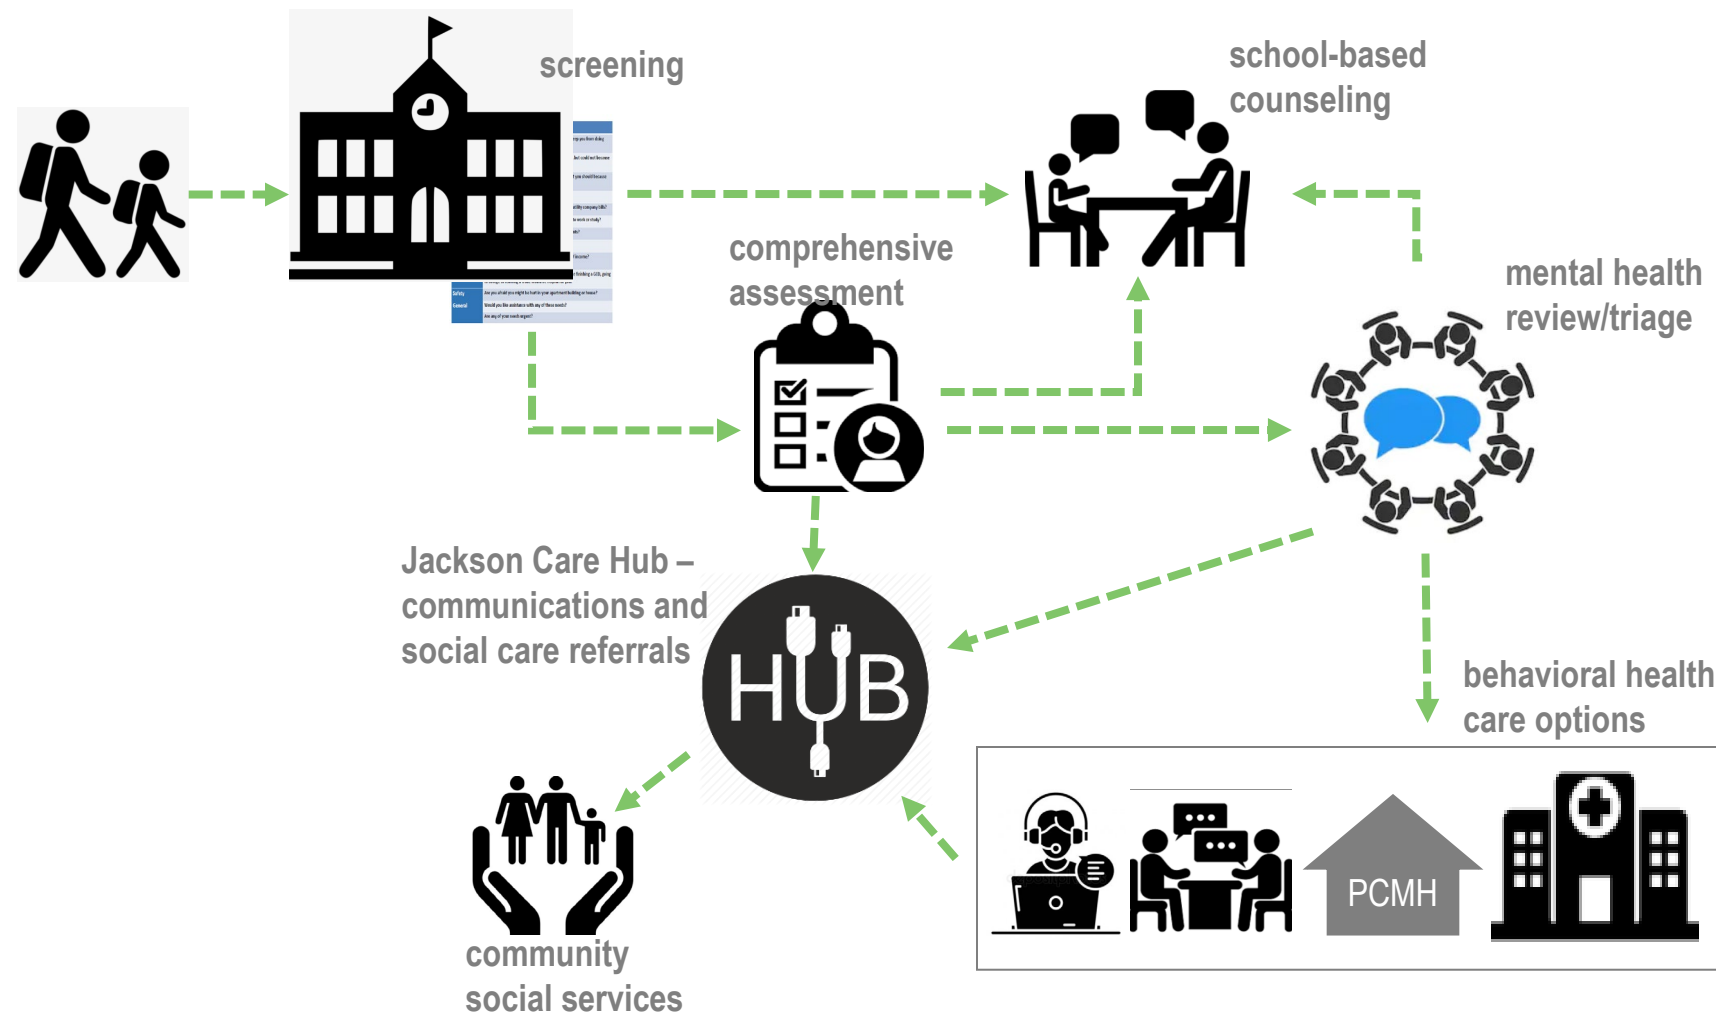

- High-cost Medicaid ('superusers')
- Dual eligible (Care+Caid)
- Medically complex CMH
- End of life care (palliative care)
- SUD/opioids
- Population health uses
  - Risk stratification
  - Prospective complex care management
- Homeless/housing insecurity
- Re-entry
- Aging in place (senior care)
- Education (children at risk)
- Refugee resettlement
- Employers

# General model for cross-sector social care

## Example: School-based screening and assistance

## Draft Community child-adolescent behavioral health care model for Jackson, MI

Source: M. Klinkman 3/2019

# Some examples of Michigan government/agency use cases

Agency	Use case	Cross-sector connections	Status
MDOC Several Counties	Re-entry	Housing, employment, social services, health care, SUD care	First conversations with Washtenaw County, MDOC
Several	Refugee resettlement	Housing, employment, social services, health care	Needs assessment with JFS, Samaritas
MDOE Regional ISD	School-based screening and assistance	Mental/behavioral health, social services, CPS, health care	Ongoing conversations with MDOE MHEF - Jackson ISD
Area Agencies on Aging	Comprehensive senior services	Mental/behavioral health, social services, APS, health care, care transitions, palliative-hospice care	Conversations with 4AM Washtenaw WISE pilot R2 AAA integration (Jackson) MHEF - NM AAA ADT linkage
Washtenaw County OCED	Barrier Busters community hub	All CBO and CDO services organized through OCED	Beginning implementation, will link to Washtenaw WISE

# Current challenges for social care data exchange

- Establishing shared vision for social care, data exchange, and CIE
- Maintaining alignment – within and across sectors
- Engaging and orienting community stakeholders
- Onboarding organizations to ‘new’ set of use cases
- Multiple administrative and workflow barriers
  - Point of care data capture is perceived as a burden by clinicians, CBOs
  - Inconsistent requirements/protocols across range of payors
  - Need MOUs/agreements for sharing across multiple data owners
- Data governance and stewardship issues
  - Who ‘owns’ SDOH data?
  - Is it HIPAA-protected?
  - Who gives consent for sharing, and how far does consent extend if not HIPAA?
- Solving value and reimbursement issues

## **Facilitated Discussions:**

- 1. Collection and sharing of social care data**
- 2. Referring individuals in need. Workflow and process**
- 3. Organizational capacity**

# Breakout Room Instructions

- PLEASE use this opportunity to BE HEARD and SPEAK UP
- 5 Facilitated Breakout Rooms
- Transferred Automatically
- If you have any problems with connectivity, please contact: Katy Lewis [Katelyn.lewis@mihin.org](mailto:Katelyn.lewis@mihin.org) or 734-626-4375

# Collection and sharing of social care data

## Questions:

1. Do you understand why there has been greater emphasis on screening for social care needs in your practice?
2. How has your practice implemented social care needs screening?
3. What value is there for you in working with social care problems?
4. Do you ever assign z-code diagnoses when you're working with patients?

# Referring individuals in need. Workflow and Process

## Questions:

1. How does collecting social care needs screening and follow up activities affect your practice workflow?
2. How do you refer people to other services in the community? What are the challenges in doing so?
3. When you work with referrals--Does your organization work with or receive referrals through other systems?
4. Are you submitting social needs screening data to MiHIN thorough the SDoH use case?

# Organizational Capacity

## Questions:

1. Have you thought about how you might be able to use your own social needs screening information to improve your organization?
2. Do you have the ability to work with the social care data that you collect?
3. Are there organizational capacity issues that keep you from being able to engage in more advanced data collection?

# Summary and Next Steps:

Where does the work  
need to go next?

What is the next best  
step from your  
perspective?

**Thank you!**

**The MiHIN SDOH Team**
